## Welcome to Katering 4 Kids!

**Katering 4 Kids** is a service provided by Encompass Early Education and Care, Inc. Encompass has been in the business of caring for and about children for over 90 years. With this much experience we have become experts in childhood nutrition and understand what foods children will enjoy. Or should we say, “Children will enjoy eating what we serve even when it is good for them”. We are so proud of our healthy, nutritious, well-balanced food program for the children we serve that we are now offering this service to other child care programs, private schools and organizations where supporting healthy kids is a part of their mission.

All **Katering 4 Kids** meals are prepared under the direction of a Certified Dietary Director. She and her staff prepare cost-effective meals daily which include home-made soups, casseroles, fresh fruits and vegetables, and correct child sized portions according to the USDA’s Child and Adult Care Food Program (CACFP). Meals will be delivered to your site daily in insulated containers to keep food fresh and hot. We make serving nutritious meals to all children a SNAP!

Save money, save time and make all of your meal service headaches disappear.

Call **Katering 4 Kids** at 469-1236 and ask for Missy or email us at [mschmeling@encompasssec.org](mailto:mschmeling@encompasssec.org)
